REPORT OF THE REVISEUR D'ENTREPRISES AGREE

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of **Holcim US Finance (Luxembourg) S.A.** (the "Company"), which comprise the statement of financial position as at 31 December 31 2022, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies. In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Company as at 31 December 2022, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union.

Basis for Opinion

We conducted our audit in accordance with the EU Regulation N° 537/2014, the Law of 23 July 2016 on the audit profession ("Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the "*Commission de Surveillance du Secteur Financier*" ("CSSF"). Our responsibilities under the EU regulation N° 537/2014, the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the « Responsibilities of "*réviseur d'entreprises agréé*" for the Audit of the Financial Statements » section of our report.

We are also independent of the Company in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of the audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Reason why the point has been identified as key audit matter	Response
Evaluation of recoverability of receivables owed by related parties	
<p>As at 31 December 2022, the non-current financial assets consisting of receivables owed by related parties amounted to USD 721 632 124,60 which represents 99 % of the Company’s total assets. As detailed in the Note 2 of the financial statements, the financial assets are carried at amortized cost less impairment in accordance with the accounting policies disclosed in the notes to the financial statements.</p>	<p>We have performed the following procedures over the evaluation of the recoverability of receivables owed by related parties:</p> <ul style="list-style-type: none"> - obtaining an understanding of the internal recoverability procedure put in place at the group level - evaluating the judgements and decisions made by the management for assessing the recoverability of the receivables - reconciling the data used for the assessment with the audited and unaudited financial information of the counterparties - obtaining an understanding and list of the unused credit lines available to the counterparties.

Other information

The Board of Directors is responsible for the other information. The other information comprises the information stated in the management report and the Corporate Governance Statement but does not include the financial statements and our report of the “réviseur d’entreprises agréé” thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors for the Financial Statements

The Board of Directors is responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs as adopted by the European Union, and for such internal control as the Board of Directors determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “réviseur d'entreprises agréé” for the Audit of the Financial Statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the “réviseur d'entreprises agréé” that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the EU Regulation N° 537/2014, the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the EU Regulation N° 537/2014, the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors;
- Conclude on the appropriateness of Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the “réviseur d'entreprises agréé” to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the “réviseur d'entreprises agréé”. However, future events or conditions may cause the Company to cease to continue as a going concern;
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence and communicate to them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our report unless law or regulation precludes public disclosure about the matter.

Report on Other Legal and Regulatory Requirements

We have been appointed as "réviseur d'entreprises agréé" by the General Meeting of the Partners on 16 February 2022, and the duration of our uninterrupted engagement, including previous renewals and reappointments, is 4 years.

The management report is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.

The Corporate Governance Statement is included in the management report. The information required by Article 68ter paragraph (1) letters c) and d) of the law of 19 December 2002 on the commercial and companies register and on the accounting records and annual accounts of undertakings, as amended, is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.

We confirm that the audit opinion is consistent with the additional report to the audit committee or equivalent.

We confirm that the prohibited non-audit services referred to in the EU Regulation No 537/2014 were not provided and that we remained independent of the Company in conducting the audit.

MANAGEMENT REPORT

We have the honor of reporting on the activity of the Company for the year ended December 31, 2022.

We hereby submit to you the financial statements for the same year.

Summary of activities:

The principal activity of the Company is to raise funds on the capital market and to provide intercompany financing in USD to other Holcim group companies.

In May 2022 the name and the legal form of the Company was changed from Holcim US Finance S.à r.l. & Cie S.C.S. (Société en Commandite Simple) to Holcim US Finance (Luxembourg) S.A. (Société Anonyme). Holcim Ltd became the sole shareholder of the Company and increased the Share Capital of the Company by USD 30.000.

In May 2022 Holdertrade Ltd & Cie S.N.C. repaid two existing intercompany loans to the Company, the received funds were used to provide new loans to Holcim International Finance Ltd.

In November 2022 the Company agreed to substitute Holcim Capital Corporation Ltd as issuer of the following issuances with a total nominal value of USD 550 million:

- Series B U.S.\$250,000,000 6.875 per cent. guaranteed notes due 2039 guaranteed by Holcim Ltd
- Series B U.S.\$250,000,000 6.500 per cent. guaranteed notes due 2043 guaranteed by Holcim Ltd
- U.S.\$50,000,000 7.65 per cent. Private Placement due 2031 guaranteed by Holcim Ltd

These issuances were assigned to the Company together with three loans for a total nominal value of USD 550 million to Holcim Ltd.

The three loans to Holcim Ltd were fully repaid immediately after the assignment and the funds received by the Company were used to provide three new loans to Holcim International Finance Ltd.

Summary of the financial activities:

Financial Income/Expenses

The financial income increased by USD 5,9 million compared to prior year due to the new loans provided to Holcim International Finance Ltd.

The financial expenses increased by USD 5,5 million compared to 2021 due to substitution of issuer of several bonds mentioned in the paragraph above.

Derivatives and Risk:

Derivative Instruments

The company holds no derivative instrument as at the balance sheet date.

Liquidity Risk

The third-party financial debt of the Company is guaranteed by Holcim Ltd towards the debtholders.

The Company monitors its liquidity risk by using a recurring liquidity management process and maintaining sufficient reserves of cash and unused credit lines to meet liquidity requirements at all times.

Credit Risk

The Company is exposed to the credit risk of the borrower on its intercompany financing and monitors this risk continuously.

Interest rate risk

The Company manages its interest rate risks actively. During the year under review, the loans granted by the Company are financed in a back-to-back manner avoiding any interest exposure on its financing activity.

Foreign currency risk

The Company manages its foreign currency risk continuously. As December 31, 2022, the Company was not exposed to material currency risk as most transactions as well as most receivables and payables were denominated in its functional currency (USD).

Uncertainties:

The main uncertainties of the Company are the future development of the liquidity of the financial markets, the evolution of reference interest rates and exchange rates in the view of refinancing its maturing debt or the potential issuance of new securities in the capital markets.

Key Performance Indicators:

The Company is committed to enhance its performance through continuous improvement; it reports its financial result on a monthly basis and evaluates the performance mainly based on the maximization of the income, minimization of financial expenses and the assessment of liquidity, interest rate and foreign exchange risks.

Subsequent event:

No material subsequent events occurred after December 31, 2022.

Result Allocation:

The financial year ended as at December 31, 2022 has been closed with a profit of USD 295.738,89. Total assets of the Company amounted to USD 731.196.963,06.

The Directors note that as at December 31, 2022 the Company's own equity consists of the following items:

- Share Capital	USD	50.000,00
- Share Premium	USD	2.990.000,00
- Retained earnings prior year	USD	616.137,92
- Result of the year	USD	295.738,89

We suggest the following allocation of the result:

- To be carried forward:	USD	290.738,89
- To the legal reserve:	USD	5.000,00

Outlook:

The Company does not expect any major changes in its activity in the foreseeable future and expects to continue its financing operations in a comparable manner. If deemed appropriate by the Company, a part of the financial liabilities could be refinanced by the issuance of new debt instruments or bank facilities.

Research and Development:

As the principal activity of the Company is to raise funds and to provide intercompany financing, it has no R&D activity.

Own Shares:

The Company does not hold any treasury shares.

Branch of the Company:

The Company doesn't have any branch as at December 31, 2022.

Responsibility statement:

To the best of our knowledge, the financial statements prepared in accordance with the applicable set of accounting standards give a true and fair view of the assets, liabilities, financial position and profit or loss.

The management report includes a fair review of the development and performance of the business together with a description of the principal risks and uncertainties.

Corporate governance statement:

The Company has high standards of corporate governance, ensuring responsible and transparent company leadership and management that are geared to ensure full compliance and set the basis for a sustainable long-term performance.

The Company considers the 10 principles recommended by the Luxembourg Stock Exchange as guidance for its own corporate governance.

Corporate governance puts the focus not only on business risks and the company's reputation, but also on corporate social responsibility towards all our stakeholders. As a responsible business, we recognize the significance of effective corporate governance. We show respect for society and the environment, communicate in an open and transparent manner, and act in accordance with legal, corporate and ethical guidelines. To underline this, a Code of Conduct binding for the entire Group has been added to the mission statement.

Organization and management

Board of Directors:

The Company is placing a strong emphasis on corporate governance. The Board of Directors consists of two independent Directors out of three members with complementary high qualifications.

Management:

The daily business of the Company is under the responsibility of the Management. The Management consists of a member with high qualifications, which is appointed by and report to the Board of Directors.

Independent auditors

As part of their auditing activity, the independent auditors inform the Managers about their findings. The Company uses the audit committee as established at Group level. At Group level, the Audit Committee assesses the external auditors and monitors the results of the audit.

Mazars Luxembourg S.A. was approved as independent auditor for a one-year term until the Annual General Meeting of 2023.

Code of conduct

Since 2004, the Code of Conduct, binding for the entire Group, has been part of the mission statement.

This code of conduct is available under this link:

<https://www.holcim.com/corporate-governance>

Internal control

The Company has implemented a control system and procedures.

Complementary information concerning the corporate governance of the Group can be found under this link: <https://www.holcim.com/corporate-governance>

Notes to the financial statements

1. Company information

Holcim US Finance (Luxembourg) S.A. (the "Company") is a limited liability Company incorporated in Luxembourg. The date of incorporation was on November 28, 2005. The principal activity of the Company is intercompany financing in USD.

The shares of the Company are held by Holcim Ltd, its ultimate parent company, with 100%.

The Company's share capital comprises of 50'000 (20'000 in the previous year) authorized, issued and fully paid ordinary, non-preference shares with a nominal value of USD 100.00 each.

These financial statements are the Company's separate financial statements in accordance with IAS 27.

2. Summary of significant accounting policies

Basis of accounting

The financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union (EU).

The financial statements have been prepared on the historical cost basis, except for the revaluation of certain properties and financial instruments that are measured at revalued amounts or fair values at the end of each reporting period, as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of IFRS 2, leasing transactions that are within the scope of IFRS 16, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in IAS 2 or value in use in IAS 36.

Related companies refer to group companies consolidated in the Holcim Ltd financial statements.

Going concern

The directors have, at the time of approving the financial statements, a reasonable expectation that the Group have adequate resources to continue in operational existence for the foreseeable future. Thus they continue to adopt the going concern basis of accounting in preparing the financial statements.

Macroeconomic developments

In the context of high inflation and tight labour markets, central banks in most major economies have raised interest rates at an accelerated pace, which has increased the concerns about recessions in those economies and which may lead to further significant levels of volatility in equities, currencies and interest rates. In addition, the implications of the ongoing war in Ukraine, including a deepening energy crisis in Europe, as well as the continuing effects of the COVID-19 pandemic and related restrictions in Asia Pacific, have continued to add uncertainty to future economic and market developments. The Company does not conduct any new business in Russia or with Russia-domiciled clients.

Presentation currency

The assets and liabilities of the Company are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The Company's presentation and functional currency is USD, as the principal activity of the Company is intercompany financing in USD.

Foreign currency translation

Foreign currency transactions translated into the functional currency are accounted for at the exchange rates prevailing at the date of the transactions. Gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies are recognized in the statement of income, except when deferred outside the statement of profit and loss as qualifying cash flow hedges or net investment hedges. At each reporting date, monetary assets and liabilities that are denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Cash and cash equivalents

Cash and cash equivalents are financial assets. Cash equivalents are readily convertible into a known amount of cash with original maturity of three months or less and which are subject to an insignificant risk of changes in value.

Current financial assets

Current financial receivables are recognized at their fair value and are subsequently measured depending on their classification based on the business model and contractual cash flows test.

Trade receivables are recognised initially at the amount of consideration that is unconditional, unless they contain significant financing components when they are recognised at fair value. They are subsequently measured at amortised cost using the effective interest method, less loss allowance.

Investments

Investments in subsidiaries and associates are stated at cost as the company intends to hold the asset to maturity to collect contractual cash flows. Investments in which the Company does not have a controlling interest or significant influence are classified as fair value through other comprehensive income. All purchases and sales of investments are recognized on the trade date, which is the date that the Company commits to purchase or sell the asset. The purchase cost includes transaction costs, except for derivative instruments.

Non-current financial assets

Non-current financial assets consist of (a) non-current receivables - related companies and (b) non-current receivables - third parties. Non-current receivables are measured at amortized cost using the effective interest method.

Impairment of financial assets

IFRS 9 requires the Company to measure and record the expected credit loss ("ECL"), which means that anticipated as opposed to incurred credit losses are recognised resulting in earlier recognition of impairments. A loss allowance for expected credit losses is determined for all financial assets, other than those at FVTPL, at the end of each reporting period. The expected credit loss recognised represents a probability-weighted estimate of credit losses over the expected life of the financial instrument. The company considers the probability of default upon initial recognition of long-term loans and receivables whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period by considering available reasonable and supportable historical and forward-looking information.

The company uses three categories for long-term loans and receivables which reflect their credit risk and how the loan loss provision is determined for each of those categories:

Category	Definition
Performing	Customers have a low risk of default and a strong capacity to meet contractual cash flows.
Non-performing	Interest and/or principal repayments are past due and credit risk level shows an increase.
Write-off	Based on observable data the payments will not be collected.

Each exposure is allocated to a credit risk category at initial recognition based on available information about the borrower. Exposures are subject to ongoing monitoring which may result in an exposure being moved to a different credit risk category.

Over the term of the loans, the Company accounts for its credit risk by providing for expected credit losses on a timely basis. In calculating the expected credit loss rates, the company considers historical loss rates for each category of customers and adjusts for forward looking macroeconomic data. No significant changes to estimation techniques or assumptions were made during the reporting period.

Non-current financing liabilities

Non-current financing liabilities from related companies are measured at amortized cost using the effective interest method.

Bank loans acquired and non-convertible bonds issued are recognized initially at the proceeds received, net of transaction costs incurred. Subsequently, bank loans and non-convertible bonds are stated at amortized cost using the effective interest method with any difference between the proceeds (net of transaction costs) and the redemption value being recognized in the statement of profit and loss over the term of the borrowings.

Financial liabilities that are due within 12 months after the end of the reporting period are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability until more than 12 months after the reporting period.

Current and deferred taxes

Current taxes are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current tax is also recognized in other comprehensive income or directly in equity respectively.

Deferred tax is provided using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements at reporting date. Tax rates enacted or substantively enacted by the end of the reporting period are used to determine the deferred tax expense.

Deferred tax assets are recognized to the extent that it is probable that future taxable profit will be available against which deductible temporary differences or unused tax losses can be utilized.

Deferred tax liabilities are recognized for taxable temporary differences arising from financial investments except where the Company is able to control the timing and distribution of earnings from these respective entities and where dividend payments are not expected to occur in the foreseeable future.

Deferred tax is charged or credited in the statement of profit and loss, except when it relates to items credited or charged outside the statement of profit and loss, in which case the deferred tax is treated accordingly.

Provisions

A provision is recognized when a legal or constructive obligation arising from past events exists, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of this amount.

Recognition of Dividend and interest income

Interest is recognized on a time proportion basis that reflects the effective yield on the asset. Dividends are recognized when shareholders' right to receive payment is established.

Contingent liabilities

Contingent liabilities arise from past events whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. They are accordingly only disclosed in the notes to the financial statements.

Adoption of revised and new International Financial Reporting Standards and Interpretations

The following amendments became effective as at 1 January 2022:

- Reference to the Conceptual Framework – Amendments to IFRS 3
- Property, Plant and Equipment: Proceeds before Intended Use – Amendments to IAS 16
- Onerous Contracts – Costs of Fulfilling a Contract – Amendments to IAS 37
- IFRS 1 First-time Adoption of International Financial Reporting Standards – Subsidiary as a first-time adopter
- IFRS 9 Financial Instruments – Fees in the '10 per cent' test for derecognition of financial liabilities
- IAS 41 Agriculture – Taxation in fair value measurements

None of those amendments had a significant impact on the Company's financial statements for the 12 months period ended December 31, 2022.

A number of new standards are effective for annual periods beginning after 1 January 2023 and earlier application is permitted; however, the Company has not early adopted the new or amended standards in preparing these financial statements.

The following new and amended standards are not expected to have a significant impact on the Company's financial statements.

- IFRS 17 Insurance Contracts (including Amendments to IFRS 17 issued in June 2020 and Amendment to IFRS 17 (1 January 2023))
- Amendments to IAS 8 - Definition of Accounting Estimates (1 January 2023)

- Amendments to IAS 1 and IFRS Practice Statement 2 - Disclosure of Accounting Policies (1 January 2023)
- Amendments to IAS 12 - Deferred Tax related to Assets and Liabilities arising from a Single Transaction (1 January 2023)
- Amendments to IAS 1 - Classification of Liabilities as Current or Non-current (including Amendment to IAS 1 - Classification of Liabilities as Current or Non-current – Deferral of Effective Date issued in July 2020) (1 January 2024)
- Amendments to IFRS 16, Leases - Lease Liability in a Sale and Leaseback (1 January 2024)

The Company has not early adopted any new standards, interpretations or amendments that have been issued but are not yet effective in these consolidated financial statements. The Company is currently assessing the impact of those amendments on the financial statements. Those impacts are not expected to be material.

3. Critical accounting judgements and key sources of estimation uncertainty

Use of estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of incomes, expenses, assets, liabilities and related disclosures at the date of the financial statements. These estimates are based on management's best knowledge of current events and actions that the Company may undertake in the future. However, actual results could differ from those estimates.

Critical accounting estimates and assumptions

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. There are no accounting estimates or judgements which are considered to be critical.

4. Risk management

Financial risk management

The Company's activities expose it to a variety of financial risks, including the effect of changes in debt structure and equity market liquidity, interest rate, foreign exchange and credit risk. The Company's overall risk management focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance of the Company. The Company may use derivative financial instruments such as foreign exchange contracts and interest rate swaps to hedge certain exposures. The Company does not enter into derivative or other financial transactions which are unrelated to its operating business. Financial risk management within the Company is governed by policies approved by Holcim Group key management personnel. It provides principles for overall risk management, as well as policies covering specific areas such as interest rate risk, foreign exchange risk, credit risk, use of derivative financial instruments and investing of excess cash.

Liquidity risk

The Company needs liquidity to meet its obligations. As an individual company, it is responsible for its own cash balances and the raising of internal and external credit lines to cover the liquidity needs, subject to guidance by the Group and, in certain cases, approval at Group level. The Group monitors its liquidity risk by using a recurring liquidity planning tool and maintains cash, readily realizable marketable securities and unused committed credit lines to meet its liquidity requirements. In addition, the strong creditworthiness of the Group allows it to access international financial markets for financing purposes.

Market risk

Holcim Group is exposed to market risk, primarily relating to foreign exchange and interest rate risk. To manage the volatility relating to these exposures, the Group may enter into a variety of derivative financial instruments. The Group's objective is to reduce fluctuations in earnings and cash flows associated with changes in foreign exchange and interest rate risk.

Interest rate risk

Interest rate risk arises from movements in interest rates which could affect the Company's financial results and market values of its financial instruments. The Company is primarily exposed to fluctuations in interest rates on its financial liabilities at floating rates which may cause variations in the Company's financial results. The exposure is mainly addressed through the management of the fixed/floating ratio of financial liabilities. To manage this mix, the Company may enter into interest rate swap agreements, in which it exchanges periodic payments based on notional amounts and agreed-upon fixed and floating interest rates. The Company is also exposed to the evolution of interest rates and credit markets for its future refinancing, which may result in a lower or higher cost of financing. The Company constantly monitors credit markets and the aim of its financing strategy is to achieve a well-balanced maturity profile to reduce both the risk of refinancing and of large fluctuations of its financing cost.

Foreign exchange risk

The Group's global footprint exposes it to foreign exchange risks. The principal activity of the Company is intercompany financing in USD. It usually borrows funds from third parties or related parties in the same currency. Any remaining foreign currency exposure may be hedged by entering into derivative contracts.

Capital Structure

The Company's objectives when managing capital are to secure the Company's financial needs as a going concern. The Company manages the capital structure by ensuring an adequate cash flow from operating activities. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to the shareholder, return capital to the shareholder, issue new shares, or sell assets to reduce debt.

Credit risk

Credit risks, or the risk of counterparties defaulting, are constantly monitored on a Group level. In general, the Company only enters into financial transactions with related counterparties, as well as with non-related counterparties with high credit ratings. The Group does not expect any counterparty to be unable to fulfill their obligations under their respective financing agreements.

The maximum exposure to credit risk is represented by the carrying amount of each financial asset, including derivative financial instruments, in the statement of financial position.

Fair value estimation

The fair value of publicly traded financial instruments is generally based on quoted (unadjusted) market prices at the end of the reporting period.

For non-publicly traded financial instruments, the fair value is determined by using a variety of methods, such as the discounted cash flow method and option pricing models. The valuation methods seek to maximize the use of observable market data existing at the end of the reporting period.

The fair value of current financial assets and liabilities at amortized cost are assumed to approximate their carrying amounts due to the current nature of these financial instruments.

The levels of fair value hierarchy used are defined as follows:

Level 1 fair value measurements are those derived from quoted prices in active markets for identical assets or liabilities. The types of assets carried at level 1 fair value are equity and debt securities listed in active markets.

Level 2 fair value measurements are those derived from valuation techniques using inputs for the asset or liability that are observable market data, either directly or indirectly. Such valuation techniques include the discounted cash flow method and option pricing models. For example, the fair value of interest rates and currency swaps is determined by discounting estimated future cash flows, and the fair value of forward foreign exchange contracts is determined using the forward exchange market at the end of the reporting period.

Level 3 fair value measurements are those derived from valuation techniques using inputs for the asset or liability that are not based on observable market data. In 2022 and 2021, there were no financial assets and liabilities allocated to level 3.

There have been no transfers between the different hierarchy levels in 2022 and 2021.

5. Financial instruments and fair values

December 31 2022 (all amounts in USD thousands)	Carrying amount		Fair value				
	Debt instruments at amortized cost	Financial assets at amortized cost	Total	Level 1	Level 2	Level 3	Total
Financial assets measured at amortized cost	-	721,632	721,632		959,301		959,301
Financial liabilities measured at amortized cost	714,315		714,315	617,343	65,703		683,046

December 31 2021 (all amounts in USD thousands)	Carrying amount		Fair value				
	Debt instruments at amortized cost	Financial assets at amortized cost	Total	Level 1	Level 2	Level 3	Total
Financial assets measured at amortized cost	-	149,725	149,725		191,113		191,113
Held for trading			-				-
Financial liabilities measured at amortized cost	149,734		149,734	151,585			151,585

6. Contractual maturity analysis

(all amounts in USD thousands)	Contractual undiscounted cash flows						Total
	Within 1 year	Within 2 years	Within 3 years	Within 4 years	Within 5 years	Thereafter	
2022							
Non-derivative financial liabilities	41,603	41,603	41,603	41,603	41,603	1,203,110	1,411,125
Total	41,603	41,603	41,603	41,603	41,603	1,203,110	1,411,125
2021							
Non-derivative financial liabilities	4,340	4,340	4,340	4,340	4,340	175,900	197,600
Total	4,340	4,340	4,340	4,340	4,340	175,900	197,600

The contractual cash flows are based on the earliest date on which the Company can be required to pay.
 Contractual interest cash flows relating to a variable interest rate are calculated based on the rates prevailing as of December 31.

7. Financial income and financial expenses

(all amounts in USD thousands)	2022	2021
Financial income - parent	2,601	4,192
Financial income - other related companies	7,471	-
Total financial income	10,072	4,192

Of which:

Interest income	10,072	4,192
Hedge result		

(all amounts in USD thousands)	2022	2021
Financial expenses - parent	-1,969	-
Financial expenses - other related companies	-	-1,046
Financial expenses - third parties	-7,654	-3,088
Total financial expenses	-9,623	-4,134

Of which:

Interest expense	-7,756	-3,056
Guarantee fee expense	-1,969	-1,046
Amortizations	122	-9
Other financial Expenses	-20	-23

The position of financial expenses - third parties relates primarily to financial liabilities measured at amortized cost.

Interest rate sensitivity

The Company's sensitivity analysis has been determined based on the interest rate exposure relating to the Company's financial liabilities at variable rate on a post hedge basis as at December 31. A 1 percentage point change is used when the interest rate risk is reported internally to key management personnel and represents management's assessment of a reasonably possible change in interest rates.

At December 31, a 1 percentage point shift in interest rates, with all other assumptions held constant, would result in an immaterial amount of additional/lower financial expenses before tax on a post hedge basis. This is the result of identical interest reset dates and identical outstanding balances of both financial receivables and financial liabilities. As the business model is being applied consistently, the net financial exposure and interest rate sensitivity have remained unchanged.

8. Foreign exchange gains/(losses) net

(all amounts in USD thousands)	2022	2021
The foreign exchange gains/(losses) net arose from:		
Other current liabilities	(1)	-
Total	(1)	-

Foreign currency sensitivity

The Company's sensitivity analysis has been determined based on the Company's net transaction exposure that arises on monetary financial assets and liabilities at December 31 that are denominated in a foreign currency other than the functional currency in which they are measured.

A 5 percent change is used when the net foreign currency transaction risk is reported internally to key management personnel and represents management's assessment of a reasonably possible change in foreign currency rates. As at December 31, the Company has no foreign currency exposures.

9. Notes to the cash flow statement

(all amounts in USD thousands)	2022	2021
Cash at banks and in hand	3,572	3,434
Total cash and cash equivalents	3,572	3,434
Of which pledged / restricted	-	-

Cash and cash equivalents comprise cash and short-term bank deposits with an original maturity of three months or less, net of outstanding bank overdrafts. The carrying amount of these assets is approximately equal to their fair value. Cash and cash equivalents at the end of the reporting period as shown in the statement of cash flows can be reconciled to the related items in the reporting position as shown above.

Changes in liabilities arising from financing activities

The table below details changes in the Company's liabilities arising from financing activities, including both cash and non-cash changes. Liabilities arising from financing activities are those for which cash flows were, or future cash flows will be, classified in the Company's cash flow statement as cash flows from financing activities.

(all amounts in USD thousands)		1 January 2022	Financing cash flows (i)	Other changes (ii)	31 December 2022
Non-Current financing liabilities (note 12)		149,734		564,581	714,315
Total liabilities from financing activities		149,734	-	564,581	714,315
		1 January 2021	Financing cash flows (i)	Other changes (ii)	31 December 2021
Non-Current financing liabilities (note 12)		50,000	99,725	9	149,734
Total liabilities from financing activities		50,000	99,725	9	149,734

(i) The cash flows from bank loans, loans from related parties and other borrowings make up the net amount of proceeds from borrowings and repayments of borrowings in the cash flow statement.

(ii) Other changes include interest accruals, payments and a significant noncash transaction. In November 2022, the Company agreed to substitute Holcim Capital Corporation Ltd as issuer of several issuances with a total nominal value of USD 550 million. The transfer of these issuances was done at fair market value, together with the assets and as the Fair Market Value of the assets was equal to the Fair Market Value of the Liabilities, the transfer was done without any cash transaction.

10. Prepaid expenses and other current assets

(all amounts in USD thousands)	2022	2021
Prepaid expenses	2	-
Accrued interest receivable	5,991	2,386
Total	5,993	2,386

11. Non-current financial assets

(all amounts in USD thousands)	2022	2021
Non-current financial receivables - parent	-	149,725
Non-current financial receivables other related companies	721,632	-
Total	721,632	149,725

Of which pledged / restricted

Interest rate structure of non-current financial receivables

(all amounts in USD thousands)	2022	2021
Financial receivables at fixed rates	721,632	149,725
Financial receivables at variable rates	-	-
Total	721,632	149,725

The fair values of non-current financial assets amount to USD 959 million (previous year: USD 191 million) and are classified as level 2 in the fair value hierarchy. (note 5)

12. Non-current financial liabilities

(all amounts in USD thousands)	2022	2021
Non-current financial liabilities - third parties	714,315	149,734
Total	714,315	149,734
Of which guaranteed by the ultimate parent company	714,315	149,734

Interest rate structure of non-current financial liabilities

(all amounts in USD thousands)	2022	2021
Financial liabilities at fixed rates	714,315	149,734
Financial liabilities at variable rates	-	-
Total	714,315	149,734

The fair values of non-current financial liabilities amount to USD 683 million (previous year: USD 152 million of which USD 617 are classified as level 1 and USD 66 are classified as level 2 in the fair value hierarchy (note 5).

(all amounts in USD thousands)				Net book value	Net book value
Currency / nominal value	Nominal interest rate	Term	Description	2022	2021
USD/50'000	4.20%	2013-2033	Bond Guaranteed by Holcim Ltd	50,000	50,000
USD/100'000	2.24%	2021-2031	Bond Guaranteed by Holcim Ltd	99,761	99,734
USD/250'000*	6.50%	2013-2043	Bond Guaranteed by Holcim Ltd	239,915	-
USD/250'000*	6.88%	2009-2039	Bond Guaranteed by Holcim Ltd	260,135	-
USD/50'000*	7.65%	2001-2031	Bond Guaranteed by Holcim Ltd	64,504	-
Total				714,315	149,734
Of which current portion				-	-

* The Company substitute Holcim Capital Corporation Ltd as issuer in November 2022. Initial issue date and terminal date remain the same while the Company had transferred the bonds at fair market value in November 2022.

13. Income Taxes

The Company is subject to all taxes applicable for Luxembourg commercial companies. Tax expense is made of tax on income in Luxembourg. The effective rate is 19,3 % and there is no material difference with standard nominal applicable rate in Luxembourg.

14. Related Parties

Transactions with related parties are set at arm's length basis in a manner similar to transactions with third parties.

15. Operating Segments

The Company is not an operating entity and has therefore not identified any operating segment.

16. Events after the reporting period

There were no significant events after reporting period.

17. Authorization of the financial statements for issue

The financial statements were authorized for issuance by the Board of Directors of Holcim US Finance (Luxembourg) S.A. on February 17, 2023 and cannot be amended after issuance.
