

LafargeHolcim acquires Kendall Group in the UK

LafargeHolcim has acquired The Kendall Group, a leading aggregates and ready-mix concrete manufacturer with net sales of around CHF 33 million in 2017 operating in the South of England.

Jan Jenisch, Group CEO of LafargeHolcim: "The Kendall Group is a successful business with a strong record of performance, good reputation and passionate people and is highly complementary to our existing operations in the UK. We welcome our new colleagues to the Group and look forward to further developing our business in the UK together."

The new business will be managed by LafargeHolcim's subsidiary Aggregate Industries expanding its operations in the South of England. The region where Kendall is active is expected to benefit from above national average growth, especially in the housing segment.

About LafargeHolcim

LafargeHolcim is the leading global building materials and solutions company serving masons, builders, architects and engineers all over the world. Group operations produce cement, aggregates and ready-mix concrete which are used in building projects ranging from affordable housing and small, local projects to the biggest, most technically and architecturally challenging infrastructure projects. As urbanization increasingly impacts people and the planet, the Group provides innovative products and building solutions with a clear commitment to social and environmental sustainability. With leading positions in all regions, LafargeHolcim employs around 90,000 employees in more than 80 countries and has a portfolio that is equally balanced between developing and mature markets.
