## Holcim acquires PTB-Compaktuna expanding Solutions & Products

- **Leading specialty building solutions company in Belgium, expanding Holcim's portfolio in Europe**
- **Established brand with leadership in innovation and sustainability**
- **Highly profitable growth engine driven by advanced energy-efficient and renovation solutions**
- **Accelerates Holcim's growth in Solutions & Products to reach 30% of Group Net Sales by 2025**

Holcim acquires PTB-Compaktuna (PTB), a leading specialty building solutions producer based in Belgium and operating across the Benelux region and Northern France. PTB offers a broad range of high performance building solutions from adhesives and specialty mortars to finishings, adding to Holcim's specialty systems portfolio in Europe, building on the recently announced acquisition of Produits de Revêtement du Bâtiment Group (PRB Group) in France. This acquisition further expands Holcim's reach in the high growth repair & refurbishment market, with high-quality, service-led solutions from building energy efficiency to renovation.

Jan Jenisch, Holcim CEO: "I am excited to add PTB-Compaktuna to the Holcim family as another step in the expansion of Solutions & Products, advancing our 'Strategy 2025 – Accelerating Green Growth'. This addition strengthens our presence in Europe in key markets like repair & refurbishment. Building on the entrepreneurial vision and legacy of the Smessaert family, I look forward to investing in this business' next era of growth and warmly welcoming their employees into the Holcim family."

PTB was founded in 1957 in Merelbeke, Belgium as one of the first producers of specialty building solutions in Belgium. PTB's state-of-the-art facilities include production, warehousing, marketing and sales offices as well as labs for Research & Development and quality control. Its geographical footprint and solutions will make it an ideal complement to PRB Group.

The acquisition will further advance Holcim's "Strategy 2025 – Accelerating Green Growth" with the goal to expand its Solutions & Products business to 30% of Group net sales by 2025, entering the most attractive construction segments, from roofing systems to insulation and renovation.

### About Holcim

Holcim builds progress for people and the planet. As a global leader in innovative and sustainable building solutions, Holcim is enabling greener cities, smarter infrastructure and improving living standards around the world. With sustainability at the core of its strategy Holcim is becoming a net zero company, with its people and communities at the heart of its success. The company is driving the circular economy as a world leader in recycling to build more with less. Holcim is the company behind some of the world's most trusted brands in the building sector including ACC, Aggregate Industries, Ambuja Cement, Disensa, Firestone Building Products, Geocycle, Holcim and Lafarge. Holcim is 70,000 people around the world who are passionate about building progress for people and the planet through four business segments: Cement, Ready-Mix Concrete, Aggregates and Solutions & Products.
